- Bedwas GC raised a query in relation to the 50% increase in the L6&5 competition entry fee. Bedwas GC had also written directly to the CEO and Chair of WG on behalf of their parents in relation to this matter.
- The area chair (in capacity as WTP Lead) confirmed that the increase in fees was to support the increase in costs associated with improving the quality of the experience for gymnasts at the competition.
- Following an extensive discussion by the group the following actions were agreed:
 1. WG CEO to formally respond to the letter from Bedwas GC and review the increase in fees.
 2. A transactional account to be produced for the area, not just an overall profit. This would help area members to understand the costs involved.
- Bedwas GC also requested from WG CEO that the fiscal responsibilities of the area be clearly defined with respect to competition fees. The area ToR were clear on the responsibility of the area with respect to expenditure of funds but not income.
